VOLUME 1, NUMBER 15

The little Newspaper with the BIG Voice.

Wed., Feb. 7, 1979

Our tartan is no longer available

The boy scouts, majorettes and legion band, wear the Haliburton Tartan proudly, but if they require any more of the Scottish-woven fabric they will have a problem.

The three bolts of tartan which were purchased over two years ago have been entirely used and to obtain more an order for an equal amount would have to be placed with the weavers.

The tartan, which was created for our Haliburton Highlands, is made by craftsmen in Scotland and the looms must be set up for the weaving.

It consequently takes four or five months to obtain the material.

The idea for the tartan came from the Chamber of Commerce over ten years ago and they have been making the arrangements for its purchase since that time.

The price of the bolts has gone up over the years and such a purchase would now require an expenditure of over \$2,000.

The Chamber had included the cost of tartan in the total of their fiscal submission to County Council last year but had to cancel their order when their budget was cut.

The Chamber of Commerce has commitments from Minden Furniture and Stedmans Store in Minden who have agreed they would make the yard goods available in their shops.

Bob Stinson states that since the entire lot would take over two years to sell, it would not be feasible for the merchants to foot the bill for the original order.

The Chamber's Board of Directors has the problem under consideration at this time as they prepare the budget for their coming year.

PROUD SYMBOL - Earl Cooper proudly pipes into the Minden Winter Carnival wearing his Haliburton Tartan. The pride of our Highlands is exemplified in this symbol and it is not available for purchase.

Minden Carnival to show again - CBC

Did you miss the Minden Winter Carnival on CBC-TV Tuesday night? We have good news for you. CHEX-TV, Peterborough will show the footage on Conlin's Ontario at 1:00 p.m. Saturday, February 10 and CKVR-TV, Barrie will show it the same day

Dr. Pierce says politics source of Home changes

Political intervention has been cited by Dr. Pierce of Haliburton as the reason for his forthcoming replacement by a Minden doctor as physician for the Hyland Crest.

When asked whether he had been in contact with Queen's Park protesting his dismissal he replied: "I'm really not prepared to discuss it. That's news to me. I have heard nothing from Queen's Park."

"The major problem of the administration of the home has been political intervention," he said.

Dr. Pierce said that he has taken the matter to the Association of Medical Directors of Homes for Senior Citizens.

"I have addressed myself to my own profession. So far, I have heard nothing from them," he said.

Dr. Pierce told The Times that he felt that the care he had given patients at the Hyland Crest was "beyond reproach".

"I have provided good care, I think it has been exemplary," he said.

He added that he was "very disappointed in council's actions."

The County Warden, Jim Harrison, when asked to comment on whether the county was acting within its jurisdiction in releasing Dr. Pierce and soliciting the services of another physician refused to comment.

He stated that a Minden physician, Dr. Jeff Lodenqual was expected to assume the responsibility for the residents' care as of March 1 and pointed out that an agreement would be signed with Dr. Lodenqual which would then require council's approval.

Mr. Harrison was not clear on the necessity of passing a by law and the subsequent matter of three readings before council.

The Warden stated, "I think it's private, I don't think it's fair to comment."

When asked whether the County Council has had communications on the matter from Queen's Park he said "I will not commit myself to this before the meeting."

Sid Brown, Administrator of the Hyland Crest was asked to clarify detail of the Act which defines the operation of homes for the aged.

In response to a direct question, Mr. Brown stated that the County has the responsibility of hiring a physician to care for residents.

"The county has that responsibility and they must get the approval of the ministry afterwards," he said.

Mr. Brown explained that the Ministry's approval relates only to the accreditation of the selected physician.

Eakins asks response on Year of Child

1979
International Year
of the Child

John Eakins, M.P.P. (Victoria-Haliburton) has today urged individuals and groups to consider the planning of special events in connection with the International Year of the Child.

While here in Ontario no special support has been pledged by the government through extra funding, and although no general grant program has been set up to assist organizations with activities in this connection, a number of ministries are developing their own focus.

The Ministry of Community and Social Services is to receive \$4 million from provincial lottery funds which is to be used for "the purpose of identifying and developing more cost-effective approaches that will improve the delivery of children's services."

A number of suggestions have been made as to ways in which individuals or groups could mark the I.Y.C.

For example:

Invite a guest speaker to talk about positive parenting, education, day care, handicapped children, children with special needs or any area pertaining to children that would be of benefit to your group.

Construct a special children's recreation area in a local park or school yard.

Develop a children's theatre group.

Hold an art, music or drama festival for and by children.

Mr. Eakins said that he would appreciate any comments that constituents wish to make to him, or if he can assist them with further information.

Racing featured at Haliburton Village Winter Carnival to start February 16

The Haliburton Kinsmen are taking the fun out on to the ice for that village's Winter Carnival. Races for snowmobiles, solo ice races for dune buggies and oval racing on a flat track ice course will be featured as part of the club's effort.

The Kinsmen are contributing these events to the Carnival that is sponsored by the Rotary Club of Haliburton Village.

Friday, February the 16, Saturday and Sunday, the Carnival will be underway. It commences with a bonfire at 7:45 on Friday which is followed by a torchlight parade and a dance at the arena. Friday night there will

also be a figure skating exhibition at the arena and the start of the Hiram Walker Curling Bonspiel.

Saturday and Sunday afterwards children will be treated to free sleigh rides. Saturday events will start with the Trapper's Breakfast at the Legion and will go all day concluding with a dinner and a dance at that same location.

The "Chalk Dusters" (teachers of course) Hockey Tournament will get started on Saturday and end on Sunday, and the Chalk Dusters also have a dance planned for Saturday night.

**Finds flouride
questioning a
devious tactic**

Dear Sir:

It's unfortunate when the interpretation of something beneficial to mankind has to be reversed in such a devious manner. If the H.C.A.P.C. are neither "attacking nor defending" the addition of fluoride, then why, on the topic of fluoride (no pun intended) do they refer to cancer, mongolism, poison, waste product? It is one way to frighten people, especially when not all the facts are relayed to the reader.

The addition of fluoride to the drinking water is a divided issue in only a minority of cases. Most researchers advocate its use. The few who don't have had their results disputed time and again.

Fluoride, when used at a Therapeutic Dosage, has been shown not to cause cancers in humans, and because it causes no gene mutations or genetic damage; and because little or no fluoride (medical fact) will not be transferred across the placenta in a pregnant female, I wonder just how fluoride could cause mongolism.

The effects of fluorides on humans have been documented many times. The effects of fluoride on successive generations are known and there are no medical disorders from its therapeutic usage.

—continued on page 3—

**Miscarriages
trigger
probe**

Last week The Times published parts of a report from the Haliburton County Anti-Pollution Committee which included references to Hydro's use of 245T in the spraying of our area.

In the November 1978 issue of Prevention Magazine we note that there is an account of the finding of ten miscarriages among women in a small Oregon community after nearby herbicide spraying had triggered a probe by the Environmental Protection Agency.

One of the weed killers - 245-T has caused birth defects and still births among mice, hamsters, birds and other laboratory animals.

One Oregon health official studying the case is reported to have said "I feel that when you start spraying chemicals and you don't know the effects, you are taking unnecessary chances and you don't know the effects, you are taking unnecessary chances. Unfortunately, others take a look at it only in terms of dollars and cents."

Senator Guylord Nelson has attempted to halt all uses of 245-T by introducing legislation pending further study. He is quoted as saying "Evidence has been mounting for more than 10 years that a by-product of 245-T - a form of dioxin called TCDD - is one of the most toxic chemical agents known to man, second only to botulinum."

Age of Affluence

There may be a Ford in your future and it may just be made in Peking. And mainland readers of Mao's Little Red Book may soon be sipping cokes bottled nearby by workers for the revolution. Because, there is a new revolution underway, a very quiet one to be sure, but a change that may mean more to our future than those made by the victories of Julius Caesar, Hannibal's crossing the Alps and Napoleon's conquests.

The revolution we may see in process today is a process of change based on the expectations of millions of people.

In China, the multitudes of workers are about to be introduced for the first time to some of the things that we take very much for granted.

The United States and Mainland China have buried the hatchet and all the trimmings that go with the American dream are being carefully considered by the Chinese and Yankee businessmen.

The news media carried an account of the Chinese Premier's visit to an automobile factory, where, as a guest of Henry Ford he examined the four wheeled wonders of American economy.

The ultimate capitalist and the ultimate revolutionary figure, were there together, examining the means of production; calculating the possibilities of the future.

A worker was reported to have been watching and to have commented "Those were the people I thought we were fighting in Vietnam."

The factory worker can certainly be forgiven for his confusion. But we cannot be forgiven for our confusion at this point in

time. We must see things as they are with perfect clarity.

Life has always been a struggle for mankind. The fittest do tend to survive, find ourselves at present in a position of privilege. That privilege was at least in part based on the determination and very hard work of our forbears. They did not expect luxury or even comfort to be the assured result of their daily work. They did their best and accepted whatever benefit was possible to secure.

We tend to forget that we have no permanent tenure on comfort and luxury. We must put our shoulder to the wheel to produce the best that we are capable of, and expect to receive only what the traffic will bear.

absolutely as necessary for us to achieve as it was for those who originally settled this magnificent continent and built the economy that gave us the standard of living which we have come to expect.

We must face the fact that our productivity has fallen a long way down in a few years. We do not produce what we must to survive.

As we observe the onset of a new type of productivity for the Chinese people, we must remember the urgency and hunger of the rest of the world and realize that we cannot afford to coast on the efforts of the past. We must work hard and we must transmit to our children the expectation, not of consumption, but of the satisfaction that comes from getting the job done, however hard that may be.

LETTERS—

Says let the people decide while there still is a choice

Dear Sir:

Regarding the pictures on the front page of your January 17 edition, I keep wondering why it is that whenever the carcass of a deer is found, apparently killed by wolves, does it always make

the front page? As newsman, Mr. Peter Truman says, - that's not news, that's reality.

Wolves kill because they are hungry. Man kills deer too, but not because of hunger. It's called Sport. The deer winds up just as dead in either case.

It seems to me since the wolf if as God made him, and being one of His creatures, he has a right to his share. Without the pictures saying - "See what the big bad wolf has done."

Thank you.
R. Mc Gill

If not reality then what might the news actually be?

Dear Sir:

I have been reading with interest the "debate" on fluoridation. It seems to me that there is a very simple matter at stake here. Our

children's health! So let the people decide if they want their children to have fluoride. Let us not become passive and accept everything Professional People tell us. After all, they are only human

and can make mistakes too.

Once the fluoride is in the water, we then have no choice.

Yours truly

Dianne Smith

Fluoride Continued

The last letter from the H.C.A.P.C. states that sodium fluoride (NaFl) has an official toxicity rating of 4 to 5.4. This is misleading because it doesn't refer to any standard. Is '4 to 5.4' to be parts per million (p.p.m.) milligram (mg.) or grams (gm.)

It has been estimated that the average American diet contains about 0.2 to 0.3 mg (not 3.4 mg.) of fluoride per day. If 1 p.p.m. of fluoride is added to the drinking water, about 1-2 mg. of fluoride will be added to the daily diet. Balanced studies in man have shown that when the quantities of fluoride ingested do not exceed 4 to 5 mg. daily, little is retained by the body. (remember that 3.4 mg. intake in the letter of H.C.A.P.C.) This indicates the SAFETY of preventive dentistry programs based on the addition of fluoride to the drinking water in a concentration of only 1 p.p.m.

The dosage mentioned just previously was in milligrams (mg.).

The conversion of milligrams to grams is as follows:

1000 milligrams = 1 gram.

The so called lethal dose of sodium fluoride, supposedly 5 to 10 gms. would be 5000 to 10,000 milligrams (mg) Dentistry advocates only 1 p.p.m. of fluoride in water (1-2 mg)

Fluoride is, according to the H.C.A.P.C. a waste product of aluminum processing. Surely it must occur in other areas than

aluminum processing.

In any chemical reactions, a product that is produced that can have a useage is called a by-product, not a waste product. In a different light then, fluoride is a by product.

The reduction of sugar in the diet is an aid in the reduction of tooth decay, but it is only one link of a chain of events leading to tooth decay. The size, shape, and contour of the tooth, the amount of enamel and quality of the enamel, the number of pits and fissures in the tooth, the nutrition, the amount of snacking, the type and number of times of toothbrushing all have an effect on the production of tooth decay. Fluoride is simply a modern aid to help. That is why tooth paste with fluoride in it is a recommended procedure to help in the fight against cavities, and that is why school rinse programmes are carried on. Anybody who does not want to have fluoride administered simply does not have to brush with a fluoridated tooth paste, or have their children participate in the school rinse programme.

When a gross misinterpretation of fluoride can be presented by the H.C.A.P.C., how can any intelligent reader ever equate sound teeth with P.C.B.'s

If the H.C.A.P.C. are so wrong in their interpretation of fluoride with so many misleading notions, can there be any credibility in their case against P.C.B.'s

AROUND THE TOWN

By Jeanne Sears

Our gratitude toward unseen but helpful folk

Bob and Paul MacBrien and Elvin Johnson are home after some time spent in Ecuador.

Someone's got a job to do While we are lying warm; A host of unseen people, who, Must face the winter storm; Heroes? Maybe not, but we Would miss our morning cup of tea!

David Hope.

The comment above is a bit of a tribute to those who keep our streets and roads open.

Sincere sympathy goes to the families and friends of the late Myrtle Roberts, Mary Fleming, and Ralph Joyce whose funerals were since last week.

All their friends send good wishes to these people who are in or have been in hospital, Olive Ward, Nell Anderson, Tom Hurrtta and Arnold Coulter.

Cleveland dermatologist, Dr. Philip L. Balim states

that warm water is the best first aid for frost bite, not snow or dry heat. Hope you didn't need to know that, but a good idea to remember this.

At the monthly L.O.B.A. Card Party at the Orange Lodge Hall on Jan. 29 winners were lone hands (on a cut) Trudy Coulter and Florence Robinson, Verna Ward, Lyman Cox and George Hewitt. After the games all enjoyed a social half hour and the delicious lunch served by the ladies.

There has been a good crowd out Tuesday evenings at the Archie Stouffer gym for basketball, and time for this is 7:00 p.m. and they welcome more ladies to join them. For further information call 286-2039.

Several couples are away now in the southland, included are Charlotte and Mike O'Neill and Donna and Gordon Monk.

Weekend guest with his parents Mr. and Mrs. Phil Robinson was Bradley Robinson of London, Ontario.

Were you watching the Programme on T.V. Sunday night where all parts of Canada were represented? This will be of interest to everyone as the ideas aired here might be just what you think as well. Anyway it is worth tuning in.

Startling what a grin can do; Keep you going, see you through, Help you do what can't be done, Cheer your spirit, make life fun. When you feel you're just all in Square your shoulders, wear a GRIN!

Anon

At the weekly Mini Card Party at St. Paul's Parish Hall last Thursday afternoon winners were for bridge Diane

Warnes, for cribbage Vera Ward and Norah Briggs, and for euchre, lone hands Della Griffin, and Alice Morrison and Pearl Cowan. These games go on every Thursday afternoon and if you have the time come out and join our group and we start at 1:30 p.m. with bridge starting at 1:00 p.m.

February 2 had sun for the Ground Hog to see his shadow but we always get all

the winter coming to us; we knew it all the time and then a blustery Sunday, and more snow, and cold to-day (Monday) with winds really sharp. We heard many snowmachines going all weekend so suppose everyone was pleased. The next two weekends will hear the cars roaring around the ice course. Hope it is suitable weather for this event which had to be postponed.

In this cold weather don't forget the winter birds, we have several squirrels which chase the birds but they all get enough food we are sure and our woodpecker likes his stick plugged with fat.

Now the snow is piled high, be careful when you make a turn onto street or highway, you can't see until you are almost ready to turn. Anyway take care. Cheerio until next time.

Roodenburg named president of Haliburton and District Real Estate

Bill Roodenburg, well known Minden Real Estate Broker, was elected President of the Haliburton and District Real Estate Board, at the annual meeting held at Mr. Fogg's Restaurant in Carnarvon.

Ed Payne Regional Vice President from Peterborough, officiated at the installation of the new slate of officers for 1979.

Norm Harrison was elected Vice President and the Directors are - Harry Davis, Larry Van Lieshout, Alf

Wicken and Lynn Craigmyle.

In his retirement speech as president of the local board since its inception two years ago, Lynn Craigmyle gave a comprehensive report on the dramatic increase in M.L.S. sales and listings and encouraged the new executive to continue to strive for increased membership and a dedication to sound ethics in the principals of real estate marketing.

He underlined the impact of decisions being made by both the Ontario and

Canadian Real Estate Associations and reaffirmed his continuing support for a strong local board.

Harry Davis made a presentation to Lynn Craigmyle on behalf of all members and extended their appreciation for the leadership and guidance Lynn has so willingly and ably provided, during his tenure of office and gave special mention to secretary Marie Brown for her proficiency in making his job so much easier.

SENIOR LEAGUE

By Lily Rawlins

A London Blitz effect at the Winter Carnival

Last week at the Winter Carnival Parade, I think we met our "Waterloo" as it were. The float for the winter carnival must be fairly simple for us as we have no place to work or to store a float other than Mr. Hylander so because of weather conditions it has to be done the last hour or so.

This year we decided on an old fashioned couple underneath the old lamp post. The weather wasn't bad at all, but those back roads were something else and by the time we arrived at the starting point we had lost our white floor, the snowman looked more like a coalman from falling over and our lamppost looked as though it had gone through the London Blitz, but the show must go on so we did our part and whether you noticed it or not the old couple had red faces and it wasn't from the cold or drinking, just embarrassment.

Monday morning we had fun and fitness as usual and crafts in the afternoon.

Tuesday morning devotion was led in our chapel by Reverend Rosch from the Pentecostal Church in Haliburton, his lovely wife came with him to play the organ for us which we appreciated as well.

Wednesday was another physical program and crafts in our craft room, we also had Mr. Coleman and Mr. Drysdale to play carpet bowling with our men in the auditorium all in all it was a busy day.

Thursday afternoon the

ladies from the Minden U.C.W. came in and served lovely muffins and cheese, thank you girls it was a nice change.

Friday afternoon, we had our singing led by Grace Cobourn accompanied by Norma Barron.

We had a birthday last week, namely Ellen Johnson, many happy returns of the day to you Ellen.

Movies this week were

entitled the C.N.R. This was an extra long film and was enjoyed by all.

I neglected to mention that the Kinsmen came in on Thursday night to call out the Bingo numbers for us. Thank you fellows.

Also we had a Formal Dinner on Friday night but I will tell you more about that next week, so I will say so long for this week.

Carnarvon Brownies frolic at weekend house party

Members of the 1st Carnarvon Brownie Pack attended a pajama party at the home of the Tawny Owl, Diane Thomas, last Friday night. After a few hours of sleep, the Brownies were out tobogganning and playing in the snow.

At noon, we enjoyed hot-dogs and marshmallows cooked over a fire. The weatherman cooperated with a beautiful sunny day to make it a very successful over-night. Our thanks to Mr. and Mrs. Bud Thomas for opening their home to us.

This morning, I have a few aches as a result of my 100 kilometre snowmobile ride yesterday. Apparently, there were 105 riders out of Minden and 80 riders out of Haliburton for the 5th annual Whipper Watson Snowarama.

I was in a group of ten

machines, Polaris every one. There were eleven riders in our group, the Howe clan, the Stewart clan, myself and three visitors from Bolton, Wayne Sunley and Mr. and Mrs. E.G. (Curly) Stewart.

On our return to Minden, Curly Stewart was presented with a trophy for having the most money pledged among the riders out of Minden.

His completion of the trip resulted in a one thousand dollar donation to crippled children. A salute to the sixty-five year old man who also plans to ride his Polaris in the Barrie Snowarama which will be run next Sunday.

We left Minden at 8:45 a.m. and returned about 2:30 p.m. in the afternoon. We enjoyed some excellent chili at the High School cafeteria in Haliburton at lunch time. This event was well-organized

and the only part that I object to is running roads where there is a fair amount of traffic such as the Harburn road into Haliburton.

I have been accused of holding everyone up as I ride slower than most but how else can you appreciate the beauty of nature along these trails? Anyhow, I completed the trip and would like to thank all those who pledged support. My pledge sheet showed an amount of \$110.00.

I travel the highway from Carnarvon to Minden frequently every week and would say a word of congratulations to Wayne

Toye and his crew from the Department of Transportation for keeping Highway 35 in such great shape this winter.

Mr. and Mrs. Jack Gregory and Mr. and Mrs. Hal Burton left last week for a winter holiday in Florida. Mr. and Mrs. Les Clark are also enjoying the sunny south.

Mildred Archer will spend the next month in London looking after her grandchildren while her daughter-in-law, Jan, goes on a trip to Australia to visit her family there.

The sympathy of the community is extended to the family and friends of the late Ralph Joyce who passed away in Mexico last week.

A bridal shower was held last Saturday night at the home of Marie Cox in Minden for Ann McLaughlin. There were twenty-five ladies present and Ann received many useful and attractive gifts. Ann & Mike Colliss are to be married in Toronto on February 24.

HCLPA announces 1979 executive

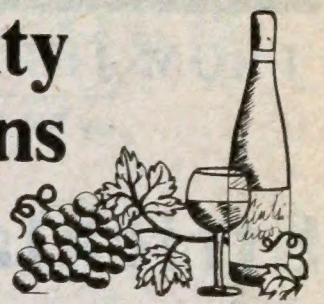

The Haliburton County Livestock Producers Association has announced the names of their executive for the year 1979.

Bud Kirchner of Haliburton is president and Dwain Wruth of Lochlin, vice-president, past president is Ross Warburton of Minden. Mrs. Joan Moore of

Kinmount is the organization's secretary-treasurer.

The directors are Maureen Warburton of Haliburton, Mary Jane Irwin of Minden, Brian Neville of Lochlin, Bill VanderWekken of Haliburton, Garry Kenney of Kennis Lake and Bill Moore of Kinmount.

County Kitchens

February has been designated as frozen food month and it is a wonderful idea. Why not celebrate the taste and nutrition of garden fresh foods preserved without artificial contamination? With the joys of our own garden fresh produce months away, let's make the most of this twentieth century miracle.

Green beans are a favorite vegetable when fresh, but we have a recipe that usually brings enthusiastic response from dinner guests, in its preparation beans are definitely superior.

Sweet and Sour Beans, they are called and they would be at their best with one of the Pork Loin roasts which Dollo's IGA is featuring at real budget prices this week.

Place 4 cups of frozen green beans in a saucepan with a cup of boiling water, a teaspoon of salt, 1/8 teaspoon of pepper, a bay leaf and 3 cloves. Cover and cook partially. Then drain and add 2 tablespoons of sugar, 4 tablespoons of vinegar and 3 tablespoons of butter. Cook for 5 minutes. Remove the bay leaf and serve. Should be enough for 6 servings.

Another special feature at Dollo's would be the basis for a tasty fruit dessert.

Several bananas, combined 2 chopped apples, a few raisins and a handful of chopped walnuts can be sprinkled lightly with brown sugar and a small amount of milk.

This fruit dish provides a welcome refreshment on a winter's evening.

\$17,700 for Chrippled Children

Haliburton riders took to the trail in their snow machines last weekend and wound up with \$17,700 for the care of crippled children.

The occasion was the 5th annual Whipper Watson Snowarama which was held under the auspices of the Minden and Haliburton Rotary Clubs.

Proceeds from the efforts of the 180 participants will be disbursed by Rotary with fifty percent going directly to the Society for Crippled Children and fifty percent remaining for the year with Rotary for the use of children who need care here in the county.

Any sum which is not used during the course of the year is

forwarded to the Society.

Lionel Walker, co-ordinator for this year's Snowarama reports that the trails were good.

Despite a major storm and other adverse weather conditions the Haliburton County Snowmobile Association managed to complete the grooming necessary for the event.

Mr. Walker says everything "went like clockwork" and notes that the event gets bigger every year.

He recalled that last year about 140 participated and they raised over \$14,000.

"We're waiting to crack the twenty thousand mark", he said.

Happy Anniversaries, See how many of them

Here are some wedding anniversary dates which have been gathered up.

Mr. and Mrs. Delbert Rogers, Mar 1, 1920 - 50 years.
Mr. and Mrs. John Welch, Nov. 5, 1928 - 50 years.
Mr. and Mrs. Harry Hobden, May 24, 1931 - 50 years.
Mr. and Mrs. Edward Pogue, May 20, 1962 - 50 years.
Mr. and Mrs. Joseph Hewitt, April 15, 1963 - 60 years.
Mr. and Mrs. Sam Nesbitt, Aug. 30, 1964 - 50 years.
Mr. and Mrs. Ernest Windover, Sept. 1964 - 50 years.
Mr. and Mrs. Ben Davis, Sept. 5, 1965 - 50 years.
Mr. and Mrs. W.H. Wunker, Sept. 22, 1965 - 50 years.
Mr. and Mrs. Waler Noice, Feb. 1, 1966 - 50 years.
Mr. and Mrs. James Austen, June 29, 1966 - 60 years.
Mr. and Mrs. Warner Casey, July 15, 1967 - 50 years.
Mr. and Mrs. Bert Harrison, June 15, 1968 - 50 years.
Mr. and Mrs. Angus Coulter, April 23, 1969 - 50 years.
Mr. and Mrs. Bert Mintz, July 1969 - 60 years.
Mr. and Mrs. Gordon Allcorn, June 22, 1974 - 50 years.
Mr. and Mrs. E. H. Peacock, Dec. 28, 1975 - 65 years.
Mr. and Mrs. Vinton Loucks, Aug. 25, 1976 - 50 years.
Mr. and Mrs. Tom Newell, Oct. 27, 1976 - 66 years.

Several other couples had anniversaries as Mr. and Mrs. James Hie their sixtieth, Mr. and Mrs. John H. Harrison their sixtieth, Mr. and Mrs. Bob Harvey their fiftieth and Mr. and Mrs. William Dugan their fiftieth. Many of these people are no longer with us, but as we can see the senior people are a hardy breed and a visit to any of them can bring many good stories to us.

MR
FOGG'S
FIFTH

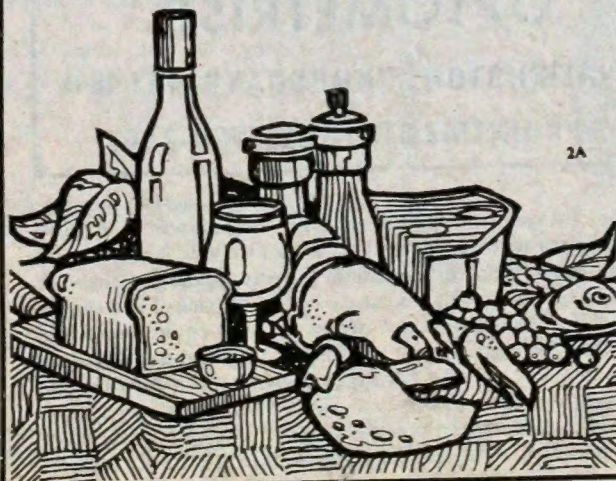

HELP CELEBRATE MR. FOGG'S FIFTH

We have just finished our fifth year of serving the Haliburton Highlands! We opened our coffee shop in Feb. 1974, and by early March our Dining Room was in full swing. We have grown, with your support, and now Mr. Fogg's facilities cater to four community needs - a bright coffee shop, cozy warm dining rooms, our fun room - The Foggy Bottom, and Mrs. Fogg's, a take-home food service.

We have enjoyed the past five years, and we are looking forward to the next five. We appreciate your support and want you to help us celebrate our fifth. So we have planned a two month birthday celebration!

FOGG'S FIFTH FLASHBACK!
COFFEE - 10¢ A CUP
during the month of February

This is just one of the many features we have planned... watch for all our advertised and unadvertised birthday specials coming up. More details are available at Mr. Fogg's in Carnarvon on Hwy. 530 at 35.

FROM THE CHAMBER

By Bob Stinson

Strickland is now president of the cottagers' Ont. association

Jerry Strickland, who is known locally as the president of the Misquabi Lake Cottagers' Association has now been elected president of the Federation of Ontario Cottagers' Association Incorporated. The Federation will be going out to build better communication network with cottagers both directly and through local associations. In order to do this membership is now being encouraged on a direct basis for cottagers who do not have a local association representing them. membership provides them with a means of communication which will keep them informed on concerns that will affect them as cottagers, and will also give them an avenue thru which they can voice their concern. Individual memberships are \$15.00 a year and may be obtained by contacting the Federation of Ontario Cottagers Association Incorporated, Suite 105, 215 Morrish Rd., West Hill, M1C 1E9.

Jerry Strickland was and still is very active on our Haliburton Water Levels Committee and from our experience with him there we know he will make a good president for the Federation. We wish him and the Federation much success and look forward to working closely with him.

TALE OF TWO BUSINESSES

Once upon a time there was a business man of moderate means that came to our community and bought a moderately successful operation. By moderately successful we would suggest that the previous owner was making an adequate living from the business considering the fact he had no mortgages to pay. New owner of course would be faced for some years with a mortgage and therefore would have to increase the amount of business and profits substantially in order to make a living as well as pay for the business. He immediately joined the Chamber of Commerce as well as a provincial association relative to his business. Within six months he was also involved in a local service club. He worked actively within the service club and also participated in all the Chamber functions. When seminars were made available that would provide him with more expertise in the operation of his business he anxiously took advantage of them.

Within a year this business had doubled in volume, and this man was well on his way to becoming one of the communities more successful business men. He took little credit for this success, suggesting that it was mainly due to the friendly, helpful assistance he got from all the friends he had made in his new community.

Another business man arriving in the area at approximately the same time appeared to be less fortunate. The business he purchased was already a member of the Chamber of Commerce and he therefore inherited the membership for the better part of his first year operation. He participated in none of the Chamber activities, and did not attend seminars since he apparently was convinced he didn't need them. When approached by a service club he said he was far too busy to be involved in that sort of thing, after all, he had a business to put on its feet.

In order to improve the economic base of his business he felt it necessary to cut costs drastically. He slashed his advertising budget, provided no funds for donations to local community projects, and took many trips to the larger centres in order to buy supplies at a saving of a few dollars. He seemed to have a great deal of personel problems since the moral of his staff was one of his lesser priorities.

After a year of operation business was far worse than when he had started, and with this in mind he would have to cut costs even more. He did not renew his membership and advertising with the Chamber, nor with the provincial association since he had "obviously" not received any benefit from either. Things looked bad and he listed his business for sale. He positively announced that it was impossible to make a living in this country because of the way we ran things and that if the community had been more receptive and helpful to him he might have made a success of it. Now if someone would just give him a decent price for his business he would move on to where there was more receptive business climate.

These two business men came to our community about the same time with the same opportunities but the ending to their stories is certainly very different. There must be a reason.

CARS BEING TOWED AWAY

The practice of some cottagers who visit their cottages on occasion in the winter time and leave their vehicles parked on the side of the road is being strictly dealt with by the O.P.P. Following a rash of accidents that resulted from this dangerous situation, the O.P.P. are having such vehicles towed away at the owners expense.

One cottager who experienced this dilemma was in a fairly isolated area with no telephone and had to walk 8 miles to the nearest source of communication. He was apparently unaware of the danger of leaving his car parked on the side of a township road and of the extreme consequences that could result. We have therefore agreed with your help to try and publicize this fact as much as possible. We urge all of you who may be talking to visiting cottagers who are not aware of this situation to stress the fact to them that they must make some arrangements to park their cars off any travelled sections of any roads. It could be a matter of life or death.

1000 LAKES BOWLING NEWS

By Joan Deyell

League executive annual zone rounds at Carnarvon

The president, secretary & treasurers tournament

One of the most effective ways the Ontario Bowlers Congress has found to say "Thank You" to all the league Presidents, Secretaries and Treasurers who give so much to organized five pin bowling is its annual free tournament for those dedicated men and women.

The 20th Annual Presidents, Secretaries and Treasurers Tournament begins again this year with the zone rounds on Sunday, February 25 at Carnarvon Lanes.

The top President, Secretary and Treasurer in each zone, in addition to valuable merchandise prizes, also wins the right to advance to the Ontario Championships scheduled for Saturday, April 7, 1979 in London.

Another long list of valuable merchandise prizes is offered at the Ontario Championships, as well as a banquet, entertainment and dance, all free to the winning bowlers. I had the pleasure of winning one year, and this weekend was one of the most enjoyable I have ever had.

So to all you league

executive members, don't miss this opportunity to participate in this fine tournament. Remember you are the only bowlers eligible to compete and we sure have a lot of fun on that day as well as meeting the executives from the other houses.

Hoult-Hellewell Mail-O-Graphic tournament

Winners have been declared in Ontario in the annual Hoult-Hellewell Mail-O-Graphic Trophy Tournament, a team event based on pins over average.

Ontario's top mens team were the "Sandbaggers" of Stouffville with 673 pins over average; top ladies team with the "7 o'clock club" team from Stouffville with 487 pins over average; mixed team was the "Never Sobers" from Preston Centre, Ottawa with 627 pins over average.

Runners-up in the men's competition in Ontario were the "Oddballs" of Saugeen Bowl; "Bedard 3612" team from B & R Bowl in Garson, "John Girous" team from Valley Bowl, Chelmsford; "Olympic Bowl" team from Toronto.

Runners-up in the women's team competition were

"Airport Dining Lounge", Sudbury; the "Elbow Benders" from Dunnville; "Duncan Brothers" from Garson and "The Greasers" league from Hanmer.

In the mixed teams' competition, runners-up were "The Bummers" from Val Caron; "Valley View Towing" also from Val Caron; "Mac's Milk" Chelmsford and "The Good Spirits" from Stratford.

The Canadian 5 Pin Bowlers' Association has yet to determine the national winners in this year's Hoult-Hellewell Mail-O-Graphic Trophy Tournament. As soon as those national winners are known, the O.B.C. Office will be distributing complete details on the Canadian and Ontario results.

THE HIS AND HERS TOURNAMENT

The house rounds for the His and Hers tournament have been completed and the Zone rounds for the winning couples will be held at Fenelon Lanes on April 1. Some nice prizes have already been won and there are some good prizes to be had at the zone finals as well. This tournament is sponsored by your 1000 Lakes Bowlers Association.

By Sam and Margaret Telford

Sylph-like figures due for spring viewing

This is a wonderful winter for snowmobiles. We have recently seen many parties streaking up and down the now unused railway track. We don't know whether this is legal or not - but it would surely make one of the most beautiful trails in the country.

We hear that Mrs. Stender's gymnastic class at the Community Hall on Monday last was very successful, and everyone will be happy to return this week. We expect to see a lot more sylph-like figures in the Spring.

On January 31 we heard the first reading of "Our Town", the play chosen for Victoria County Festival week. Some of the readers sounded

awfully good, and casting will start this Wednesday. We need more male actors for short parts.

We bought a dog tag for our Scottish terrier "Maggy" on Saturday. It is three dollars now, but will be five if you delay until April. "Maggy" is the No. 2 dog in the Township of Somerville.

On Saturday morning, February 10, at 11 a.m., the new Don Williams Laundromat, and the new Wilson Electric & Carpentry store will have their grand opening. We understand that William Scott will officiate. It is hoped that everyone will come and have a look around and see what is available.

The "new" Horticultural

Society is beginning to show signs of continuing life. We understand that the first encounter will take the form of a dinner meeting for the executive at Franzen's restaurant in February. This is a new approach, and sounds like a good idea.

Bingo at the Kinmount Legion is getting quite exciting these days. Next Friday February 9, they will be up to sixty numbers and a \$200.00 Jack Pot.

Luc... seems to run in families around here. Verna Crego won \$105.00 at Coboconk Bingo last week, and her husband Gerry won the Legion Hockey Pool. This week the Pool was won by Vi Willard and Nancy Mathieson of Coboconk won the "50-50" draw.

That sixty-five year old gentleman of our acquaintance recently received his first old age security and Canada pension cheques. He is so delighted! We quote him as saying, "I know that I have contributed to the cause, but isn't it wonderful to live in a country where you can get a return like this when you most need it?" That's all for now. Good night.

SOMETHING WONDERFUL - Archie Stouffer may be just a plain old - fashioned school where everybody learns the three R's, but it also has something wonderful for everybody from kindergarten right on through. "The Times" dropped in the other day and found the eighth grade band practising a fine sounding "Snow Bird" in preparation for a concert that they are giving on February 9 for the junior school. Meanwhile, in the first grade classrooms we found students getting ready for Valentines Day by creating hearts of lace and colored paper and paint; and even including the symbol in their arithmetic lesson. Jay Garbatt has his addition correct and neatly encircled with a heart while Tara Alrutz, finished with her lesson, paints a dramatic valentine, for someone special.

REPORT FROM QUEEN'S PARK

By John Eakins, M.P.P.

Province is hiking up your medical expenses

The Minister of Health recently announced budget plans for Ontario Hospitals for the fiscal year 1979-1980.

A 5.3 percent increase is planned for each chronic care and rehabilitation hospital, for chronic care and rehabilitation units within active treatment hospitals, and for out-patient operations. A 4.5 percent increase is planned for public hospitals, after adjustments for bed-population guidelines. There is to be a three-year program to phase in bed-population guidelines. There is to be a three-year program to phase in bed-population guidelines of 3.5 beds per 1,000 referral population in Southern Ontario and 4 beds per 1,000 in Northern Ontario.

Two kinds of adjustments will affect hospitals as of April 1. The first is with respect to budgets, and the second is in connection with measures designed to encourage "better use of the health systems" - specifically copayment or user

fees. As the Minister pointed out, the principle of user fees is not new. Those who use ambulances and those in nursing homes have paid user fees ever since these services became insured benefits. Insured persons who use the ambulance service are charged a fee for each trip and extended care residents of nursing homes are charged a per diem rate. Certain user fees have also been recommended by a number of committees and groups studying health costs in recent months, such as the Taylor Committee and the Legislature's Select Committee on Health Care Financing and Costs.

The Minister pointed out that at this time some 35,000 extended care patients in nursing homes and homes for the aged pay a per diem charge, while patients in chronic hospitals, which cost far more, now pay no per diem fee at all. There is currently no incentive to move patients from chronic

beds to nursing home beds when nursing home care could more properly meet their needs. The Government is therefore introducing a per diem charge for those occupying a chronic bed in a public or chronic hospital longer than 60 days. The 60-day qualifying period begins February 1. As of April 1, 1979, the fee is to be \$9.80 a day, equal to the per diem nursing home fee. The same fee would also apply to those occupying a bed in a provincial psychiatric hospital longer than 60 days.

As of April 1st, the ambulance copayment will increase, for the first time since its inception 11 years ago. For insured persons, it will increase from \$5 to \$20. The mileage charge for longer trips will be abolished. For those not insured or for uninsured services, such as medically unnecessary trips, the user charge will increase from \$25 to \$40. The actual cost of an average ambulance trip is about \$90.

ALONG THE TRAILS

with Roy Bates

SNOWARAMA

As this is written before the ride it is not possible to report on the success of the event. We can, however, mention the great effort of the H.C.S.A. trail workers in getting the route ready after the severe storm of January 24.

Just about every snowmobile trail in the County was completely closed by broken limbs and fallen trees. The club set to work immediately to reopen the Snowarama route and groom it to perfection before considering any other trails.

The club regrets that snowmobiling opportunities were very limited for members and visitors for that week but is happy to report that most trails are now open and in

good condition.

The storm caused many problems temporarily but the mild weather that followed was a blessing. Trail surfaces have firmed up for better grooming and the deep snow along the trails has become more buoyant.

Snowmobiling conditions should be excellent throughout February.

DRIVER TRAINING

On Sunday, January 28, twenty students were trained and certified as snowmobile operators by instructors Patton and Jennings at Club 35, Halls Lake. This was the

second school at that location this winter. Twenty-six students were trained there in December.

Two schools were held at Donald, in the Haliburton County Snowmobile Association clubhouse in January, one by Dennis Casey, club instructor, and one by this writer, an O.F.S.C. master instructor.

Total number trained so far this year by the club is 72.

All snowmobilers using public trails must be licensed. The licence is available at age twelve. For information, call 457-1658.

With Kevin Roberts Times Staff

Cold Weather Research

Sometimes winter driving can be frustrating. Even if you're so lucky as to get your car running on some of these cold mornings, numerous other problems caused by the weather may present themselves. Whether it is cold starting, the defroster, frozen doors and windows or temperamental electrical components most cars experience one or more problems at some time.

General Motors of Canada has an interesting and logical approach to their research on cold weather problems.

General Motors has a Cold Weather Development Centre in Kapuskasing. G.M. chose the Kapuskasing area because it is a natural cold weather laboratory where its engineers could evaluate vehicles under consistent conditions of extreme cold.

Overall vehicle evaluation is conducted by subjecting a fleet of vehicles to 19,200 km (12,000) miles of a "Customer Service" schedule, so named because it is designed to accelerate the type of service to which a vehicle is subjected by an average motorist in severe winter operation.

A test route simulates urban, rural and highway driving situations. At specific intervals, items such as doors, windows, trunk lids, mirrors, antennas, etc. are operated a prescribed number of cycles to ensure that all components of the vehicle have been thoroughly evaluated.

Inactivity can be just as significant as activity in cold weather so G.M. engineers let vehicles stand for fourteen hours before a pre dawn cold start. Once a week they simulate parking over a weekend by leaving the vehicles unused for thirty-six hours.

The vehicles operate on this schedule for approximately 60 days from mid-November to mid-March during which time the Kapuskasing area weather would be very similar to Haliburton County's.

Evaluations are made of such things as cold starting, cold driveability, heater and defrost system performance, electrical components, accessories, brakes by G.M. engineers and technicians utilizing sophisticated equipment and instrumentation.

General Motors Cold Weather Development Centre officially opened as a permanent facility in 1973 but

G.M. engineers have been using the Kapuskasing area since 1953 for this purpose.

This Centre has enabled General Motors Corporation to have an increased awareness of the many problems encountered by a vehicle in cold weather and therefore they can implement improvements to ensure their vehicles meet our expectations in places like the Highlands.

SNOW'S STILL COMING

GET A GMC

Brawny built with rugged plowing power, it's a removable snowplow mounted on a Four-Wheel Drive GMC Pickup. For tough clearing jobs on driveways, work sites and parking lots and convenient for on and off-road service. In stock now and ready for immediate delivery. Take advantage of its availability.

Announcements

THANK YOU

We would like to take this time to thank our family and friends for the kindness they have shown to us on the occasion of our Wedding.

Words cannot express the appreciation we have for all gifts and wishes received. A special thanks go out to Elda Henderson, June Holland, Carol Evans, Margaret Miller, Mable Hewitt and Mrs. Sawyers who donated their time and helped to make our special day a wonderful success.

Lots of love and thanks.
Murray and Charlene Chrisholm.
